#### **Tasting notes**

Marsannay "Champs-Perdrix", is located in the extreme south of the appellation, on the highest hill. It produces very concentrated wines with a complex bouquet and very rich aromas. It expresses all the minerality of our calcareous soils.

#### **Wine pairing:**

The red Marsannay are naturally paired with red meats such as beef ribs, shallot tabs and ostrich steaks. Do not hesitate to also pair them with river fish (pike, pikeperch, even a stuffed carp), chop suey, stir-fried vegetables, quality charcuterie, game birds and cheeses made from cow's milk ...
