Quinta Santa Eufemia is concerned with the environment, and produced according to IPM (integrated pest management) methods.

## Olive Oil

*Quinta de Santa Eufêmia*  
is one of the many unequalled repositories of history in the Douro Valley, the oldest Demarc region in the world, since 1756.  
Founded in 1864 by the patriarch of a traditional Douro family, Bernardo Rodrigues de Carvalho.

Now is managed by the fourth generation of the family – seven great-grandchildren who have been producing these fine old Douro Port wines, preserving the age-old skills of winemaking and ageing.

Situated on the left side of the river Douro, with over 50 hectares under vines, the vineyard produces grapes of the richest varieties, trodden in the traditional way and fermented on granite vats in order to extract their finest essences. The wine is aged in oak casks before being selectively blended to satisfy the most refined palates.
