#### Vinification

Maturity: 15 to 20 months, depending on the year, are necessary so that the vintage of this variety, which mainly grows in the area of Montigny, acquires roundness and fineness.

#### Tasting notes

A steady and beautiful cherry colour with a slight leaden appearance. The morello cherry takes over the smell, then the strawberry, a bit of blackberry and a touch of spice appears - very characteristic of this grape variety. The wine has a lot of presence and a good relationship between the taste and the smell. The delicate tannins stimulate the palate, good length. While aging the aromas of undergrowth and mushrooms should be released.

#### **Best to Drink:**

12 to 15 years

#### **Wine pairing:**

A wine for aging. A wine for the end of a meal.
